Dear Sir:

We are happy to enclose your plastic owner's registration card for your marine engine produced by Thermo Electron Engine Corp. Should warranty work be required on your engine, one of our distributors or the factory must be contacted for authorization BEFORE warranty repairs are made. A listing of our distributors is enclosed for your reference. Your plastic owner's card protects the warranty on your engine, and must be presented to our distributor before warranty can be honored.

Please feel free to contact this office if you have any questions on this subject.

Sincerely,

THERMO ELECTRON ENGINE CORP.
